## PETROMAX PRODUCTS

### Petromax Engine Oils

Petromax Tribology range of engine lubricants are designed based on the wide technical expertise and the most developed technology to provide your engine with optimal lubrication, and to ensure that it stays in good condition and operates smoothly.

#### Passenger Car Motor Oils (PCMO)

Our passenger car oils are made with premium-quality base materials and superior additive packages. Petromax PCMO products also meet or exceed various OEM applications. Be it for protection, lower emissions, or better mileage, there is always a right solution for the right application. Product range includes API SN to API SC.

#### Heavy Duty Diesel Oils (HDDO)

Our commercial vehicle lubricants are developed utilizing the best base stocks augmented by appropriate additive packages to ensure optimum performance for your equipment. Petromax HDDO range covers API CK4/FA4 to lower API levels. Our HDDO range is also suitable for use for various OEM applications.

#### Motorcycle Oils (4T & 2T)

Our motorcycle oils are developed for engine cleanliness and smooth gear changes to deliver optimum efficiency as well as peak performance. Petromax range of products for this application meets or exceeds various API levels along with JASO specifications.

#### Axles & Transmissions

Discover how Petromax lubricants protect axles and gears from wear to help reduce maintenance costs, extend vehicle life, and maximize your return on investment. We also have a complete range of products for ATF applications.

#### Generator Oils

Petromax range of generator oils has been specially formulated to meet the lubrication requirements of leading generator manufacturers. We utilize best suited additive technology, augmented with high viscosity index base oils to provide excellent protection to engine components operating at extreme temperatures and heavy load conditions for longer duty cycles.

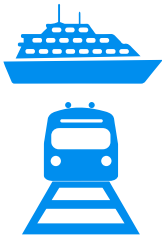

### Farm Tractor Oils

Petromax has extended its offer to agricultural professionals with a complete range of products dedicated entirely to farming equipment. For a concrete and cost-effective response to the demands of an activity forever in need of sophisticated equipment, Petromax designs innovative products that are tailored to the most recent technological developments. Product range includes Super Tractor Oil Universal (STOU), Universal Tractor Transmission Oil (UTTO), and transmission oils.

### Off Highway

Our mining and construction lubricants ensure optimum efficiency in the toughest operating conditions, reducing machine downtime, optimizing maintenance and other associated costs. Our lubricants can help you prolong machinery life, reduce maintenance costs and emissions, and increase equipment availability. From heavy-duty engine oils to appropriate final-drive lubricants, we supply a wide range of innovative products.

### Marine & Railroad Lubricants

We manufacture a complete range of high quality marine oils, incorporating the latest in technological advances for consistently high performance. The marine products include 2T (both 70BN & 100BN), 4T, and system oils.

We have also developed high quality lubricants for railroad application. These products have been optimized for longer engine life, lower maintenance costs, and provide excellent TBN retention and robust protection against wear.

### Industrial Fluids

At Petromax, we believe that success starts with thoroughly understanding your customers' needs, and having an appreciation for the challenges they encounter. Focusing on our expertise and applying the latest innovations in lubrication science, we have developed a comprehensive range of industrial products to help maximize your business performance. Choose the right product for your application and take the effectiveness, durability, and up-time of your equipment to the next level.

### Metalworking Fluids

We, at Petromax, are very in tune with the fact that one hiccup in your process can halt production, and equipment downtime costs you money. High-temperature, high-load and wet conditions can place severe demands on metal-processing equipment. Whether you want to improve energy efficiency for greater output or lower emissions, or cut maintenance costs by enhancing equipment protection, we offer a wide range of products designed to make a real difference to your bottom line.

### Greases

The longer your grease lasts, the longer your equipment's life and the less requirement of lubrication maintenance. In today's fast paced environment, equipment breakdowns can severely compromise your project schedule and not only prevent your company from earning revenue, it can also negatively impact your reputation. With a full range of various types of greases, you can select the grease to best meet your needs.

### Brake Fluids

Petromax offers brake fluids recommended for brake circuits in all vehicles meeting DOT 3, DOT4, DOT 5, and DOT 5.1 requirements.

### Engine Coolant / Antifreeze

Petromax offers a full range of engine coolants in both ready-to-use and concentrate form. Please let us know your requirements and we can recommend a product suitable for your needs.

## ABOUT PETROMAX

Petromax Grease and Lubricants FZC is a well established, ISO certified, independent manufacturer, marketer, and exporter of a comprehensive range of automotive and industrial lubricants and greases. As a reputed business, we are committed to providing the most technologically advanced lubricants and greases that are suitable for varied applications and industries. We formulate and manufacture a full range of lubricants, greases, brake fluids, antifreeze & engine coolants.

## FOUNDATIONAL HISTORY

Petromax is owned and operated by professionals with well over 50 years of industry experience working with global organizations. We leverage this wealth of industry experience to help our customers succeed in the market place by providing bespoke product solutions backed by an excellent customer service experience. We are an ISO certified manufacturing facility based in SAIF Zone, Sharjah, UAE. The facility was built in 2010, and has seen tremendous growth over the past years.

## SERVICES

### **Manufacturing Bespoke, Customer Specific, and Market Relevant Products**

We help our channel partners succeed in the market place by formulating and manufacturing bespoke, market relevant, and customer specific products. Get in touch with us for any specific requirement.

### **Private Label Manufacturing**

We work with customers who are interested in having products manufactured to their formulations. Following your recipe, we source appropriate base stocks and additive packages, manufacture, package the product as per your requirements, and have them delivered to you or directly to your customer.

We are also able to use our wide knowledge and experience of lubricant formulation to provide expert technical and commercial advice in lubricant technology. We can also facilitate our customers in the development of formulations.

## EXCELLENCE IN QUALITY

As a matter of business practice, Petromax utilizes high quality base stocks, and the additives are procured from the major international additive suppliers. We have the knowledge base, expertise, and a history to formulate and offer successful market specific products. We strictly maintain and ensure quality policy in manufacturing of our products and in provision of services. The products are developed using cutting edge technologies, and are thoroughly examined for optimum performance.

## BE OUR NEXT DISTRIBUTOR!

Become a part of this fast growing, and dynamic organization. We maintain a comprehensive portfolio of mineral, semi synthetic, and high-performance synthetic lubricants for automotive, marine, railroad, and industrial applications. Please contact us if you would like to join us as our channel partner.
